## **Silver Range provides operational update and announces management change**

**March 12, 2025 – Silver Range Resources Ltd. (TSX-V:SNG)** (“Silver Range”) is pleased to provide an operational update and to announce a management change.

### *Operations*

In February, Silver Range resumed field operations in Nevada and Arizona. A new gold-copper target was staked in Arizona and reconnaissance sampling was conducted at both point targets and within a large area target. In Nevada, Silver Range staked a gold-silver target in Central Nevada and conducted a trenching and underground sampling program at the Tule Canyon property. At Tule Canyon, underground sampling was focused in an unexplored drift at the Eastside Mine. A summary of this work will be released pending receipt of final analytical results.

### *Management change*

John Gilbert has resigned as Vice President effective March 12, 2025. Silver Range would like to thank Mr. Gilbert for his significant contributions and service to the company since 2020 and wish him well in his new role as Chief Executive Officer of GGL Resources Ltd. (TSX-V: GGL) (“GGL”). Silver Range is a joint venture partner with GGL in their highly prospective Gold Point project. Mr. Gilbert will remain a consultant and advisor to Silver Range.

### *About Silver Range*

Silver Range is a precious metals prospect generator working in the Southwest United States and Northern Canada. It has assembled a portfolio of 31 properties, 8 of which are currently optioned to others. Eight other projects have been converted to royalty interests. Silver Range is actively seeking other joint venture partners to explore the high-grade precious metals opportunities in its portfolio.

Additional information on Silver Range’s properties may be found on the company’s website at [www.silverrangeresources.com](http://www.silverrangeresources.com).
